

Make an egg carton crab

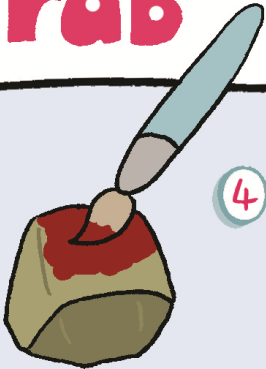

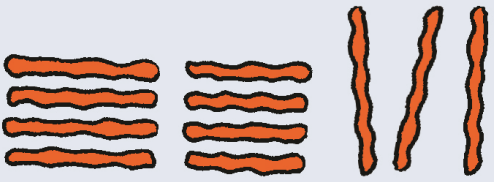

You will need

- One section of egg box (already cut out) 
- Four pipe cleaners (orange is a great crab colour!) 
- Two googly eyes 
- Paints and brushes 
- Double sided sticky tape 
- Scissors 
- Pencil 
- Felt pen 

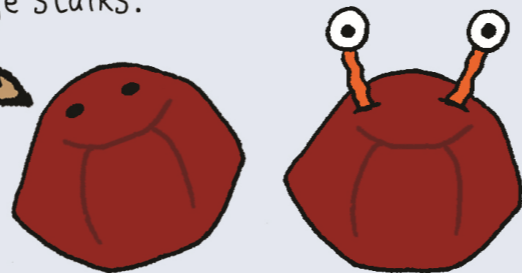

You can make other creatures too... think about centipedes and ladybirds.

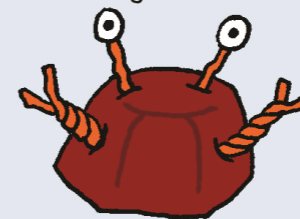

Use pom poms for heads!

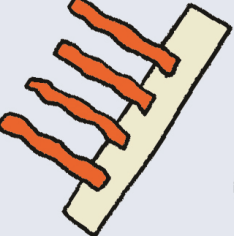

- 1 Paint the egg box section inside and out to make the crab's body. Leave to dry for a few minutes. 
- 2 Cut eight pipe cleaner legs (all the same length) plus three longer pieces. 

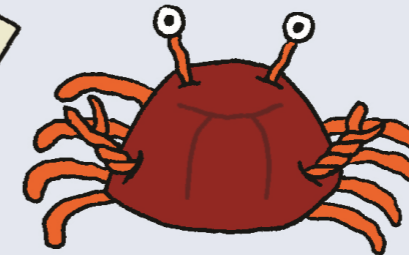

- 3 Make two holes for eye stalks with a pencil, and poke one long pipe cleaner through to make two eye stalks. Stick the googly eyes onto the tips of the eye stalks. 

- 4 Twist the other two long pipe cleaners together, make two holes in the front of the body and poke the twisted pipe cleaner through to make claws. 

- 5 Stick four leg pipe cleaners onto double sided tape and then stick them under the body to poke out. Repeat on the other side with the other four pipe cleaners. 

- 6 Draw on a smiley mouth!
